The signature post promo CATCH-UP workshop is a very intensive crash course which re-visits all JC1 key topics. Recommended for students who want an overview of JC1 key topics before embarking to JC2 in 2017. After the workshop, the students will know everything they need to know in JC1 and will have no problem blending in with the rest of the students in Physics Cafe. The Physics Cafe is a premium education center in Singapore which specialises in Physics and Maths education for secondary and JC students.
